STATEMENT OF FACTS

On 26 Sept. 2025, petitioner filed in this Court, a "Motion to Amend Final Judgement to Include Relocation out of Sentencing District" in criminal case 95-CR-142-FL-1. On 30 Sept. 2025 petitioner filed a "Memorandum of Law in Support of Motion to Amend Final Judgement".

Petitioner now request this Court expedite it's ruling on motion to amend.

DISCUSSION

Petitioner, request expedited ruling to allow the Federal Bureau of Prisons time to file the appropriate paperwork to ensure the courts recommendation that

petitioner receive one year of residential reentry center (RRC) placement. The Bureau indicates that it requires 60 days in order to file for and receive approval and placement in a RRC. Therefore, the Bureau would need to have an amended judgement no later than 9 January 2026, in order to place petitioner Bullis in a residential reentry center by 9 March 2026, ensuring his one year transition period recommended by this Court. This Court, counsel and petitioner, discussed the need for reentry center placement in detail at sentencing. At the time of petitioners release he will have served thirty one and a half years in prison. The need for residential reentry, and placement in the state of Missouri was approved by the Court at sentencing. If relocated to Missouri, petitioner has a job offer with attorney Tom Norrid. A contract for deed to a home in Kansas City, Mo. and access to a vehicle upon release.

CONCLUSION

For good cause shown, Mr. Bullis, prays this court grant his request for expedited ruling on "Motion to Amend Judgment" of 13 March 2025 to include a judicial relocation order to the Western District of Missouri.

Respectfully Submitted,
